Re: Possible visitation of Blessed Virgin Mary in Pasadena, U.S.A.

LETTER FROM:
MR. ROBERT SUPIN
501 N. HARDING AVE
SAN FERNANDO, CA 91340

Dear Father Flavian,

The Blessed Virgin Mary, the Queen of Peace, it is told of her that she made her divine form to appear to some at Pasadena on the evening of our meeting. I myself saw a light in trees opposite Rafael Brown's apartment that resembled two things. At one & the same time it resembled a dimly glowing figure of the Virgin Mary & also worldly light cast onto a tree by a possible electric lamp out of sight, but casting its glow to that tree.

The Mass was very moving, Father Stacey conducting its progress in that same piety, dignity & energy known to your mass, when from the porch or balcony, came a woman's cry, as from someone taken suddenly ill, from a sudden onset of pain. There were too many people crowded into the apartment. It was crowded as at Cairo at the Coptic church prodigy where so many thousands congregated all night that they could only stand straight, arms at their sides, all the night for the press of the multitude of them anxious to see the visitation from the precincts of Heaven.

This cry repeated itself. I feared someone had suffered among the halt & maimed. I had an impulse to move through the dense pack of the congregation to the balcony to attempt to administer first aid of whatever form may present itself to my competence. But the press upon the space was great & the Mass not yet brought to its holy completion. My corpulance of itself would precipitate a major disruption by the series of displacements I would effect before gaining the balcony. Additionally there occured to me the unpleasant possibility that one had fallen from the balcony to the ground three storeys below. Such being the case, my impulse should be to the hall, out into the labyrinths or into the night beneath the
